### **SPORT SPECIFIC OR MULTI USE GAMES AREA**

Grounds & Gardens Ltd provide synthetic sports surfaces for a wide range of sports, play and leisure activities, providing the perfect solution for schools, parks, leisure centres and health clubs. If space is at a premium, a multi-use games area can deliver a huge variety of different activities in one single area.

We also offer solutions for specific sports turf pitches providing perfect performance for individual sports. Each system can be designed to deliver controlled, predictable performance for games such as soccer, hockey and tennis.

Synthetic surfaces offer a clean and innovative outdoor space that will appeal to a variety of community users. They can be used for competitive team sports, activity and outdoor learning tools for schools and colleges and solutions to landscaping issues.

Hard-wearing, quick-draining and providing improved comfort and better grip underfoot, our synthetic systems provide an answer to health and safety issues ever present with outdoor activity, and can be installed over almost any existing surface, or used in a new installation. We also offer safety rubber/foam shock pad underlay to ensure injury risk is minimised.
